Hello CD 13,

Below is the summary for PATH outreach in CD 13 last week. PATH is contracted to perform 8 hours on Mondays and Wednesdays for a total of 16 hours per week in CD 13.

- This week we worked with approximately 11 people
 - Of these, 5 were new contacts
- From the locations that we visited this week, we identified **Coronado Terrace as being the most populated and Lucas/Beverly being the least populated.**
- Approximately 4 people have been identified as being more vulnerable
- 2 people have potential permanent housing referral options.

Special notes and targeted outreach requests

- *Coronado Terrace:* Outreached this encampment at the request of CD13, and encountered 5 residents. Provided case management, offered services and was able to create goals with 3 of the individuals. Of the 5 individuals at this location, 2 are on the most vulnerable list, one senior gentleman with health issues, and one who is difficult to engage due to mental health challenges. # of the individuals have made follow up appointments for Monday to go to DMV to get Identification. The team will continue to engage and work with these individuals with on going case management and goal progression, with hopeful linkage to resources and programs.
- *Maltman Ave:* At the request of CD13 the team explored this area for the man in question. After being unable to locate this person of concern, we engaged with the home owner who initially made the request. She informed the team that he has relocated in the last few days, however we were able to give her our direct contact numbers should he come back to the area, and she agreed to call with any updates.
- *LA River Bike path encampments:* The team has been in telephone communication with one of the individuals that we outreached last week. Although they were unable to meet with the team on the scheduled date, they are still in need of services and have agreed to meet next week. Discussed a case management plan with Family Solutions, and they will attempt to do an assessment on the next scheduled appointment.
- *3533 Madera – Atwater Village:* At the request of CD13 the team has not yet made contact with the woman in question at this location. The has this particular location in the calendar for both Monday and Wednesday of next week, to attempt to engage, build rapport, and offer services.
- **CES**
- 1 individual completed a CES assessment-VETERAN SEE BELOW

Veterans

- 1 Veteran completed CES – referred SSVF
 - – score 8

connected. The team is working with this Veteran to connect him with a new VA program that may be better matched for his needs.

Thank you for partnering with PATH. We welcome any comments or questions. Have a great weekend!
